SUMMARY ANALYSIS

REMOTE VIEWING (RV) SESSION LVI

1. (S) This report provides documentation of a remote viewing session conducted for training purposes to enhance a remote viewer's demonstrated ability.
2. (S) Target correlation for this session was evident even though the session was terminated early. Ambient room noise was extremely poor due to heavy foot traffic outside the viewing room as well as a construction crew working adjacent to the building. The remote viewer was disappointed that the session was ruined by noise because he had been able to concentrate momentarily and was beginning to form good images. The viewer was well motivated, and in good spirits prior to the session.
3. (S) The protocol used for this session was a modification of the protocol detailed in the document, Standard Remote-Viewing Protocol (Local Targets) by Harold E. Puthoff and Russell Targ, November 1978. This session's protocol was modified in that a randomly generated preselected target was not used. In lieu of a randomly generated, preselected target the "beacon" simply chose a site which, in his opinion, was unique and identifiable.
4. (S) Following is a transcript of the viewer's impressions during the remote viewing session. At TAB A are drawings made by the viewer reference his impressions of the target site. At TAB B are photographs of the target site.

TRANSCRIPT

REMOTE VIEWING (RV) SESSION LVI

TIME

#66: This will be a remote viewing session. (Edited for security.)

PAUSE

#66: #6.5's at the target location now. He's looking around the area.

PAUSE

Go to the target area with #6.5. Look around the area with him. Describe the area to me.

PAUSE

+05 #11: I'm not getting a whole lot. Right after we started the session, I had a . . . Well, I don't know how you'd describe it, but a bright spot like if you look into the sun and then close your eyes.

PAUSE

I had some fleeting shapes that looked like they might have been trees. Then I saw a pyramid shape that appeared to be a roof.

PAUSE

That should outside isn't doing me any good. Do you hear that kind of a scraping sound. Back (not audible). Its kind of hard to concentrate when you're trying to anticipate that sound.

PAUSE

#66: We'll see what it is (not audible).

PAUSE

+12 #66: What impressions do you have now?

#11: Footsteps. (Reference footsteps outside viewing room.)

~~SECRET~~

PAUSE

#11: I think we might as well chalk this one up.

PAUSE

#66: Okay.

TAB A

4. ROOF?

PYRAMID SHAPE
